Falmouth University is committed to making its website accessible, in accordance with the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018.

### Compliance status

This website is partially compliant with the Web Content Accessibility Guidelines version 2.1 AA standard, due to the non-compliances listed below.

### Non-accessible content

The content listed below is non-accessible for the following reasons:

### Non-compliance with the accessibility regulations

*THERE MAY BE PARTS OF EPRINTS WHICH ARE NOT FULLY COMPLIANT WITH WCAG 2.1 AA STANDARDS WHICH ARE LIMITATIONS OF THE SOFTWARE PROVIDED AND BEYOND OUR CONTROL*

Accessibility problems include the following:

- Missing language attribute
- Some missing alternative text elements on labels & images
- Very low contrast of some page elements

### Content that's not within the scope of the accessibility regulations

This section covers issues that we do not need to fix right now. The law calls these exemptions.

#### Research papers, theses, articles and other content

The main purpose of Falmouth University Research Repository is to record searchable metadata about the research output of Falmouth University staff and students and as a place to deposit and host research. The deposits are in the original format provide by the academic concerned. This can include materials in PDF format, links to external sites, images, video, representations of works of art and other many other types.

In 2023, we implemented accessibility checks for new deposits. This means that we ensure all images have an alternative text attribute. We also check all MS Word, MS PowerPoint and PDF documents using a proprietary accessibility tool, returning failed items for amendments by the author. Occasionally we can upload a version of a record from a publisher and find that it is inaccessible. We record items failing these checks in a Deposit Log along with a

reason, so that we know why. For items added prior to 2023, we have a long term, ongoing project to go check accessibility for all these items.

## What we're doing to improve accessibility

We are currently on Version 3.4.5 of Eprints, hosted as a service by the developers. There are potentially further upgrades that can improve accessibility. See the road map provided by the suppliers of the system Eprints Services here for details:

## Third-party content on External Platforms

*Our website contains third-party content on external platforms. We do not have control over and are not responsible for the accessibility of this content, but we make best endeavours to work with the third party to improve its accessibility. This may include:*

- *Links to academic's work hosted on external websites such as Youtube*

This statement was initially prepared on 19/05/2022. It was last reviewed on 16/09/2026.

This website was last tested on 16/09/2026. The test was carried out by the Falmouth Exeter Plus Library, Systems Librarian.

We have selected the pages to test for this statement as follows. There are two types of page within FURR, static pages and dynamic (record) pages. We have selected typical pages of both types of page listed in Appendix 1.

We tested these using the WAVE evaluation tool. Results can also be found in Appendix 1.
